Date:30/04/2026

Dear Students and Parents,

As summer vacation begins, we would like to remind you that learning should continue even during the holidays. Our thoughtfully designed summer homework will help students stay engaged, strengthen their skills, and think creatively.

While enjoying the vacation, students are encouraged to dedicate some time each day to complete their assignments. This will not only support their academic growth but also build essential time-management and organizational skills.

Wishing you all a happy and productive summer!
